Question of Asking a Requisitors From Gov. Durbin For Him p.d Other Kentuckians Debated.

Frankfort, Ky., Jan. 15 .- The question of whether or not a requisition will be presented to Gov. Durbin, of Indiana, at once, asking for extradition of ex-Gov, W. S. Taylor and other Kentuckians now in that state accused of complicity in the assassination of Wm. Goebel, is being agitated now that Gov. Mount is out of office. It is generally believed that Gov. Durbin would not honor a requisition, tatives of the prosecution decline to talk about the matter at all. It is the general opinion that, no steps, will be taken until a decision is rendered in the Howard and Powers cases now pending in the court of appeals. The voluntary return of Taylor and Finley to the state in the event Howard and Powers are granted new trials by the court of appeals is hinted at by some of their friends, but such a course on their part is not generally expected.

A Louisville Judge Struck in the Face When He Called Editor R. W. Knott a Line.

Louisville, Ky., Jan. 15.-Reuben H. Buckley, judge of the city court, and R. W. Knott, editor of the Evening Post, had an exciting mix-up in the hall at the Evening Post office Monday afternoon. Buckley, smarting under recent strictures in the paper, went to the building in company with Sam Simons, a livery stable proprietor. They met the editor in the hall and Buckley said that he called to tell him he was a d-d liar. With that Knott, it is said, struck him in the face. Simons seized Knott, who continued the attack on Buckley. At

Louisville, Ky., Jan. 15,-Dave Sulivan, of Brooklyn, and "Kid" Broad, of Cleveland, fought a 25-round draw at the Auditorium here Monday night. They weighed in at 126 pounds and from the start both men seemed evenly matched. At the end of the last round Tim Hurst, the referee, said he had nothing to do but call the fight an even break. The men punched each other viciously, Among those present at the fight was Tom Sharkey, who said he wanted to fight the winner of the Jeffries-Ruhlin fight.

of the World.

Remarkable Discoveries of Dr. Hilprecht at Nippur-Evidence of Civilization Earlier Than Supposed Time of Adam and Eve.

Prof. H. V. Hilprecht, of the Unirersity of Pennsylvania, who has been exploring the mountains of ancien: Nippur, in Asia Minor, arrived in New York the other morning on the steamer Friedrich der Grosse from Bremen. Prof. Hilprecht brought with him some of the tablets marked with cuneiform inscriptions, which he recently discovered in an old temple on the ruins of Nippur. These tablets contain records of civilization which existed as long ago as 5000 B. C. -that is, as long before Abraham as Abraham was before our time.

Prof. Hilprecht's coming has been awaited anxiously by students interested in the remote past, because his discoveries are believed to have reorganized the chronology of Biblical times, extending it back many milleniums prior to the old time reckoning of the deluge. Therefore he is looked upon as a messenger bearing news of

the earliest records of civilization. Dr. Hilprecht has been exploring the mounds of ancient Nippur for 11 years. His campaigns have heretofore been most successful, but during the past year he has made the greatest discoveries of all, the finding of the library of the ancient Temple of Nippur and the remains of a huge pal ace having at least two stories and containing many evidences of what

might be called modern conveniences The library tablets throw a strong light on how people lived at Nippur at the time when Adam and Eve were supposed to be living in the Garden of Eden. Some of the tablets are dictionaries, architectural plans, building lists, grammatical exercises contracts, bills of sale, histories and chronological lists, and not only do they form a complete record of the time, but they indicate that the civilization then existing was many thousands of years old. They supply many gaps which are known to exist in Genesis; they turn light on the origin of the Jews and the Jewish religion, and they are wonderfully corroborative of the facts outlined in the Old Testament.

"The chief point to be remarked," said the professor the other morning, "is that we have found the first Babylonian temple library that was ever discovered. Hitherto we have possessed nothing more than knowledge of the probable contents of such a library, from copies found in the royal library of Ashurbanapol, in Nineveh, which was discovered years ago."

PLAN YALE BI-CENTENNIAL.

Louisville, Ky., Jan. 15.-The city College Will Hold Elaborate Cele bration November 20

> President Hadley and the members of the Yale faculty announced the other night that the plans for the bicentennial celebration of Yale on November 20, 21, 22 and 23 were about completed and that Yale is to have a celebration in which the graduates and undergraduates will take prominent parts.

The most important announcement in connection with the celebration is that by the finance committee. This committee has been occupied with collecting funds primarily for the purpose of erecting the new memorial buildings on Grove and College streets. The total amount of subscriptions up to October 26, 1900, is \$603,474.79. Of this amount \$244,-069.84 has been paid for land on which to erect the buildings, while \$99,110 is assigned by the donors to special purposes

A total of \$282,404.10 has been paid out for site, plans and construction to date. Three additional subscrip tions of \$100,000 each have been made on condition that three other subscriptions of similar amount are secured.

One of the gentlemen making this conditional promise has made one-half of his gift outright, so that the total amount definitely in sight at present may be increased by \$50,000, that is raised to \$653,474.79.

The number of subscribers to the bicentennial fund is 607.

ONE HORSE RESCUES ANOTHER Plunges in and Tows to Land Blind Animal Struggling in

Water.

A blind horse was rescoed from a wa tery grave the other day by another horse. The blind horse wandered into a mill pond at Mountain Grove, W. Va., and soon got beyond his depth, when he began swimming around in a circle, unable to land. His distress attracted a horse which belongs to Postmaster C. Z. Herner to the water's edge, and he tried by neighing to direct the blind horse to shore. Failing in this, he plunged into the water and swam out into the deep pool to the distressed animai's relief, which was accomplished in the unique way of seizing its foretop and towing the quadruped safely to terra firma, amid the cheers of upward of 100 persons who had become

spectators.

The announcement of the illness of the empress of China need occasion her friends no alarm, says the Pittsburgh Times, since a woman who has been so often assassinated, poisoned and burned will easily be able to pull through an ordinary illness.

LISTEN, FARMERS!

New Light on the Earliest History The Ledger Offers You a Proposition That is Decidedly Fair.

"When I am ready to sell anything I insert a little advertisement in the local papers telling what I have to sell, and, if live stock, how many of sell, and, if live stock, how many of each, and when they will be ready to ship, and the result has been that buyers are right after me, either personally or by mail, and naturally I get the highest price."

THE LEDGER has such faith in the efficacy of publicity that it submits this proposition-
